

Design a mobile and web application called "NeuroLight".

Theme: Lighthouse imagery with a calm, accessible palette of purple, blue, and turquoise. Prioritize clarity, visual calmness, and accessibility (large fonts, dyslexia-friendly fonts, and intuitive navigation).

App Purpose: Support parents/carers of individuals with additional needs by storing and managing personalized support profiles.

1. Dashboard (for Parents/Carers)

Secure login screen (email/password)

Main dashboard with:

Overview of linked profiles (cards for each young person/adult)

Notifications section

Button: "Add New Profile"

Quick Access Menu (Medical Info, Daily Care, Support Plan, Community)

Settings Icon (Top-right)

2. Profile View (Person with Additional Needs)

Design a multi-tab layout for these sections (each tab shows editable fields):

A. About Me

Fields: Name, Age, DOB, NI Number, Local Authority, Education Status, Address, Email, School/Day Centre Info

B. Medical Information

Fields: Diagnoses, Allergies, Medications (Regular + PRN), Pain Communication

C. Education and Activities

Fields: Current Setting, Enjoyed Activities, Aspirations, Personal Strengths, How to Build Rapport

D. Positive Behaviour Support

Fields: Triggers, Early Signs, De-escalation Strategies

E. Being Proactive & Positive

Subsections: Just Right State, Support (Transitions, Dysphagia), Environment (Noise, Lighting), Communication, Personal Care Routines, Timetables, Likes & Dislikes

F–O: Continue with tabs for:

Returning to Green, Reactive Strategies, Behaviour Info, Reconnecting & Debrief, Restrictive Practices, Circle of Trust, Transitions, Targets, MCA, EHCP (UK Education Health Plan with sections A–K)

3. Extra Features

Community Forum

Tabbed interface: Parents | Carers | Young Adults

Categories layout

Report/Moderate feature

AI Chatbot

Chat-style interface

Suggest tips/resources based on input

Button: "Generate Resource"

Professional Access

Enter Code Screen

Approval Request Pop-up

Marketplace

Practitioner Cards: Name, Specialty, Rating, Subscription Status

Filters by profession

4. Security & Navigation

GDPR notice screen

Navigation should be bottom-tab for mobile, side-menu for web

Use calming visuals (e.g., lighthouse iconography subtly in background headers or logos)
